Title: Moonglow, A Tour

Author: The Moonglow Tour Co.  
-----

Welcome to Moonglow,  
home of honesty, and  
magery.

To start the tour, you  
must start at the  
western exit of the city.  
Go west, and stay  
along the road. After  
some time, you will find  
the Lyceum. This is the  
largest library/school in  
all of Sosaria. The  
students learn from the  
best minds, bringing forth  
some of the wisest  
mages. You will also  
notice that the elves  
promote their heritage  
here, so all you humans,  
who so choose, disrobe  
and embrace the elvish  
ways.

Now that you have toured  
the lyceum, Enter the  
teleporter on the north  
west corner.

You are now back in the  
city of Moonglow. From  
here,  
we Request you go south.

There you will leave and  
find the dorms that hold  
the students who live  
within the city walls.  
Next, you will come  
across a fork in the  
road. Go right and take  
a trip along the road,  
being sure to stop and  
check out the local  
wares. You will then  
come across a large  
building with a farm in  
front. This is the  
esteemed headquarters of

Moonglow Town Council.

If one is lucky, one can even observe the militia training hard within the farm boundaries, or the people lined up, ready to take listen and take action under their mayor.

Located directly south of headquarters on the very southwestern point is our tavern Of Fish and Heroes. A fine place pause a moment for a drink.

Go back north to the road and head east, enjoyig the sea breeze, and the flora and fauna of the city, until you reach a small set of stairs. Climb down.

Now, go east along the road. Before you is a ranch, Bloody Ranch.

This building was used for something, I'm sure, as there is more blood and skeletons there than the rest of Moonglow.

Next, there is another set of steps, go up them. Take the road, until you reach one of Moonglow's pride, The Royal Brittanica Zoo. Enjoy the benefits enjoyed here. (please see book on zoo tourism included) Next exit to the east of the zoo. and be prepared.No, that is not your imagination. It is the Moonglow cemetary, haunted by those who've died in service to this great city. Continue up the road, and you have run into another fork in the road. Go east at this point, and you shall follow the road until you see another farm. The field here is used for large militia trainings and large outdoor events and tournaments.

Now,  
backtrack going west,  
taking the road until you  
reach the city again.  
Next take the north gate  
out of the city and  
follow the road. When  
the road spits, go north  
and up the stairs. Keep  
going along the road, until  
it ends in a building.  
This building is one of  
Moonglow's pride, the  
Encyclopedia Magika. Here,  
you can talk to the many  
scholars, read a book, or  
venture onto the city  
Papua, with a simple  
word. Recdu. To return,  
just say recsu, and the  
magic words will bring you  
back. Take time during this  
to go visit the wonderful  
shops within the city.  
Lastly, go out the  
southern eastern exit.  
This will be a long ride,  
so we recommend you  
bring a glass of water or  
wine. Take the road until  
you hit the fork. Keep  
going east. You will see  
another fork. Go  
straight and on the last  
split, take the northern  
pass until you hit the  
end of the road.  
Welcome to the marvel  
of the telescope. Speak  
to our Astronomers. Ask  
any information needed.  
They will hopefully pay  
attention and answer your  
questions. This concludes  
are tour of Moonglow.  
Please enjoy, and have a  
wonderful day!
